December 20(3-5PM)

Introductory Classes

Intro to Computers

A look at computer history, how to operate Windows 10, modern computer components, file management, creating shortcuts, and basic computer buying advice.

Resume & Job Search

This class is a discussion of cover letters, resumes, the interview process and advice on searching for jobs.

Internet Resource Classes

Google Services

Gmail, Drive, Docs, Sheets, Maps and more will be discussed in this class about the various free services Google offers.

Internet Safety

Viruses, trojans, spyware, phishing, and spam are covered in this class all about keeping you and your information safe online.

Facebook 101

How to setup a Facebook account, set privacy settings, post comments, create events, and more will be covered.

What's the Cloud?

This class discusses what exactly is meant by the cloud and some popular cloud services such as iCloud, DropBox, and Google Drive.

Online Selling

This class is an introduction to eBay and online selling. Topics will include creating listings, uploading pictures, Buy it Now versus standard auctions, shipping charges, and PayPal.

Specialty Classes

Intro to Genealogy

Interested in learning how to get started with researching your family tree? Join us for a 2 hour workshop on beginner Genealogy. We will review library resources such as Ancestry.com and Heritage Quest.

Holiday Tech Shopping Guide

Wondering what the latest and best devices are for the gadget lover on your gift list? What about how to find the best deals in store and online? Then this is the class for you!

Intro to Quickbooks

Quickbooks is the standard software used in business accounting, with over 3 million business using the software to manage their companies. This class is an introduction to this powerful piece of software, designed to give business managers an idea of how Quickbooks operates.

Microsoft Office Classes

Word 2013 (2 Sessions)

Students will explore the various components of the Microsoft Office Word 2013 environment, create documents, edit documents, format text/paragraphs, and add graphic elements to a document.

Prerequisite: Basic computer knowledge and experience with the keyboard/mouse

Beginner Excel 2013 (3 Sessions)

Students will learn to create basic worksheets and workbooks, modify and format worksheets, use calculations, create their own formulas, customize worksheet and workbook layouts, and print workbook contents.

Prerequisite: Basic computer knowledge and experience with the keyboard/mouse

PowerPoint 2013(1 Sessions)

Students will learn to customize the PowerPoint environment, add diagrams to presentations, add special effects to a PowerPoint presentation, and use the various options to customize slide shows.

Prerequisite: Beginner Word

Intermediate Excel 2013 (3 Sessions)

Students will learn to edit and format multiple worksheets, grouping worksheets for editing, constructing formulas on a grouped worksheet, constructing formulas that refer to cells in another worksheet, concatenate, and inserting sparklines.

Prerequisite: Beginner Excel

Excel 2013 Pivot Tables & More(2 Sessions)

Students will learn to create and use pivot tables/charts, if functions, v lookup, goal seek, circular references, and working with ranges.

Prerequisite: Intermediate Excel

Excel 2013 V Lookup(1 Session)

Students will learn to create and use V Lookup and other associated functions.

Publisher(1 Sessions)

Students will learn how to create high quality brochures and other documents with Microsoft Publisher.

Prerequisite: Beginner Word

Excel Hacks(1 Session)

Microsoft Excel users use only a small percentage of what the application is capable of. Hidden within Excel are loads of lesser known Excel Productivity Hacks that will make your Excel experience more efficient and fun.

Prerequisite: Intermediate Excel

Pre-registration is required, to reserve your seat:

Call: 570-348-3000 ext. 3038 or Email: complab@albright.org

Drop-In Help Sessions

(Arrive any time during these sessions, no registration required)

Open lab

Open lab time where you may come in to use a computer or get help with any computer topic. You may also bring in your own device (laptop, phone, tablet). An instructor is available for help during every open lab.

Student Classes

MineCraft Mania

Love MineCraft? Join fellow fans as we compete in building challenges in MineCraft in the library's computer lab! We use MineCraft Realms so that you can come back to your projects during another session.

Lego Robotics

Work in a team to design, build and program a LEGO Robot! For kids and teens ages 11 to 18. Must be able to read independently.

Creation Station Classes

Premiere

Students will learn how to do a different editing function during each class. The software used is a free download that can be installed and practiced at home.

3D Printing

This class is a chance to ask questions about 3D printing and practice with TinkerCAD, a free online software that allows anyone to create 3D printable objects.

Pre-registration is required, to reserve your seat:

Call: 570-348-3000 ext. 3038 or Email: complab@albright.org
