1,000 Books Before Kindergarten

Did you know research shows that reading aloud to children is the single most important thing you can do to help them prepare for reading and learning? The library has launched an initiative to help families reach the goal of reading at least 1,000 books before their children start school. It sounds like a big number, but if you read one book each day with your child, you will achieve the goal under three years. Register at www.lclshome.beanstack.com.
